

PROFIPOL®+

- voltage: 12 V - 690 V AC/ DC (LED)
- display stages: 12, 24, 50, 120, 230, 400, 690 V AC / DC (voltage display even in case of empty batteries)
- acoustic and optical continuity test up to 100 k Ω (buzzer / yellow Ω -LED)
- single-pole external conductor test (phase) (red LED)
- polarity indication (+ /- LED)
- non-contact phase tester/ detector of cable breaks (yellow LED)
- detent pin for one-hand operations e.g. for voltage test in sockets and safe storage of the voltage tester
- protection IP 54 (dust / splash proof)
- impact-proof and robust housing
- built and approved acc. to IEC / EN 61243-3:2015
- over voltage category CAT III 600 V, CAT II 690 V
- incl. 2 x 1.5 V micro batteries (LR03 / AAA)

PROFIPOL®+

PROFIPOL®+

indication	LED
voltage range	12 – 690 V AC / DC
continuity test	buzzer / yellow LED
single-pole external conductor test	yes / red „lightning“ LED
polarity test	yes / LED
cable break detector	yes / yellow LED
protection class	IP 54
item no.	020023
